## 2N2672 BJT

TransistorData.com is not an official representative or the creator of the BJT 2N2672 Transistor. Copyrighted materials belong to their respective owners. Please Note: Users can download the official 2N2672 transistor datasheet in PDF, pin diagram, pnp pinout circuit and equivalent transistor data.

## 2N2672 BJT Datasheet

Type of Transistor:	BJT
Type Designator:	2N2672
Material of Transistor:	Ge
Polarity:	PNP
Maximum Collector Power Dissipation:	0.1 W
Maximum Collector-Base Voltage:	25 V
Maximum Collector Current:	0.01 A
Maximum Operating Junction Temperature:	90 °C
Transition Frequency:	180 MHz
Forward Current Transfer Ratio (hFE Value):	40
Collector Capacitance:	2.5 pF
Package:	T05
Noise Figure:	-
